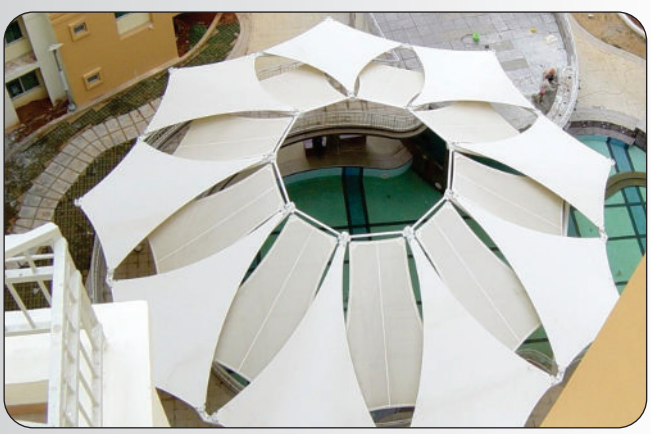
Pool & Park Covers



Pool Cover - Mantri Elegance, Bangalore

Prorich adopts a concept to completion methodology. Prorich consults, designs, plans these structures and then specifies various loading, cutting patterns, fabrication and erection options. The special attributes of these Tensile structures are that they are elegant both during the day and at night. The fabric seems diffuse and complement light.

Walkways Membrane

Walkway cover in Qatar University, Qatar

Prorich walkways membranes for forming pedestrian walkways for maintenance traffic, on single ply waterproof membranes. As well as providing safe access routes the walkway membranes protect the waterproof membrane from mechanical damage. Walkway membranes are restrained by high frequency membrane welding the edges and laps to the main waterproofing membrane.

Canopies & Umbrellas

Astra Zeneca Tensile Umbrella Bangalore

Prorich Canopies can be used for shading in any position. Especially your horizontal shading needs like in greenhouses, conservatories and other glazed places. They are also suitable for shopping centres, industrial buildings, new constructions or house alterations.

Prorich offers you a wide variety of outdoor and portable canopies and umbrellas based on frame construction and canopy type. The primary feature that differentiates one canopy from another is the frame construction.
